

244  
Dear Mr. Garrison

Sand Lake, Newfane Co. N.H. July 27 1841

You will please send what I have written to Miss Pease and if you think it will be of any service to your cause please send it. If not you will please throw it aside. It is at your disposal. I have thought it duty to write it and if you think it sufficient consequence to send it you are at liberty to alter any part of it as it regards matters of fact and expression, I should be happy to aid those friends who are willing to speak all the truth. You are therefore at liberty to copy & send <sup>any</sup> part of the letter in my name.

You need not be informed that C. P. Grosvenor is of the same piece with Colver so far as truckling to the powers that be <sup>are</sup> concerned,

I expected to have been in Boston some weeks since but have been under the necessity of visiting the Ohio River this Spring & Summer. And have attended so many meetings of various kinds at a distance that I am unable to bear the expense of traveling as I desire. I would gladly be with you at Millbay at the State Meeting but I am utterly unable to bear expenses. My traveling expenses the present year will not be less than \$200. including my family. My wife & friends are in deep affliction. Your kind died from ill health always furnished during the last six months. These & other reasons ~~but~~ necessary to mention are my apologies for not attending meetings of the Societies towards which I cherish the kindest feelings.

If I can say any thing more by way of acknowledgment for my past sustaining New Organization I shall be very happy to do it. What a set of self-deceivers those men are. B. W. Denison told himself to gain the respect of the dough faced priests of Mass. In April 1840 he solemnly promised before God that he would stand by the truth and aid me in carrying out the means which are stated in the letter to Miss Pease viz. carrying our principles into all our Benevolent associations. but alas! poor Child he has become a tool of the Devil. May God strengthen you to go forward until death.

Mrs. Brown's father & others in Fredonia Schenectady Co. N.Y. When I saw her a few weeks since she wished to be very kindly remembered to your self & body. I expect her here 1<sup>st</sup> of Sept.

I am acquainted with one very mean deception trick of Nathaniel Colver which I would publish over my own name if it is necessary. He has treated me most scandalously just because I have exposed his hypocrisy.

Yours very Respectfully

Abel Brown

P.D.

I am at your service any way I can benefit the cause consistent with my  
situation.
